

ENCS 691K: Cloud Networking and Service Provisioning (Semester Long Project)

Roch Glitho, PhD

Associate Professor and Canada Research Chair

My URL - <http://users.encs.concordia.ca/~glitho/>

Semester Long Project

1. Every student should select either the standard project or a personalized project.
2. The project should be done in groups of:
 - 3 – 4 students (Standard project)
 - 1 - 4 students (Personalized students).
3. If a student selects the personalized project she/he should submit a one page proposal by September 30. Furthermore if she/he is in a thesis option program, she/he should get the approval of her/his thesis supervisor.

Semester Long Project

- 5. Validation (e.g. prototyping, simulation) is mandatory for all projects, i.e. surveys/literature review projects will not be accepted
- 5. All projects should be closely related to cloud computing

Semester Long Project Preview (ENCS 691K - Standard Project)

Topic (ENCS 691K): Distance Learning Application in the Cloud

Main actors:

- Teacher
- Students

Semester Long Project Preview (ENCS 691K - Standard Project)

Topic (ENCS 691K): Distance Learning Application in the Cloud

Minimal requirements (Pre-lecture arrangements)

- Student registration

Semester Long Project Preview (ENCS 691K - Standard Project)

Topic (ENCS 691K): Distance Learning Application in the Cloud

Minimal requirements (Lectures)

- Notification when class starts
- Text and audio conferencing
- Video streaming
- Students with special needs
 - Translation to other language(s)
 - Translation to sign languages

The End
