

Jennifer Ng, jng@ieee.org

Jennifer started her career as a software engineer at Curtiss-Wright Embedded Computing Controls (formerly [Dy4 Systems Inc.](#), Ottawa, Canada). In the late nineties, thanks to NAFTA, she moved to United States to work for [Mercury Computer Systems, Inc.](#) where she honed in her skills in software release engineering. Then she made a career change to Medical Devices and her responsibilities at [Visage Imaging, Inc](#), a subsidiary of [Mercury Computer Systems, Inc.](#) - where she was the Quality Systems Manager and interim Quality Management Representative - included ensuring compliance to regulatory standards. To continue her exposure and experience in the Medical Devices and Regulatory Affairs fields, she came back to Canada and then joined [Abbott Point of Care](#) as a Quality Project Manager in the Ottawa site. Through her career, she has held increasingly significant positions in software engineering, software release quality and quality management.

Jennifer obtained her Bachelor of Electrical Engineering from [McGill University](#), Montréal, Canada (B.Eng '94). She also completed her Management Certificate from the Boston University Corporate Center in 2004. She was a Canada Scholar in 1990 – a scholarship program in Canada that sought out, selected and supported academically outstanding students who showed talent, dedication, leadership and service in their communities. She is also a graduate of Vanier College CEGEP where she studied Pure and Applied Sciences.

Her full professional profile and affiliations can be viewed at <http://www.linkedin.com/in/jenniferng> and full biography at www.jenniferng.org

Jennifer has been a member of IEEE since 1990 and became a member of Women In Engineering ([WIE](#)) in 1996. She continues to be very involved in mentoring students (McGill Mentor Program) and peer IEEE members (IEEE mentoring service).
