

COMP442/6421 Assignment 1 grades

	I2.1 Lexical specifications as regular expressions – document Section 1.	I2.2 Finite state automaton representing the implementation, and description of the method used to generate the automaton from the regular expressions – document Section 2.	I4.3 Description/rationale of the overall structure of the solution and the roles of the individual components used in the applied solution to the stated problem – document Section 3.	I4.4 Correct implementation according to the stated problem.	I4.4 Error reporting – Output of clear error messages (error description and location) in the outlexerrors file.	I4.4 Output of token stream in the outtokens file.	I4.4 Error recovery – the lexical analyzer continues running after errors are found.	I4.4 Completeness of test cases (in addition to the grading files).	I5.2 Description of tools/libraries/techniques used in the analysis/implementation. Description of other tools that might have been used. Justification of why the chosen tools were selected – document Section 4.	I5.1 Successful/correct use of tools/libraries/techniques used in the analysis/implementation.	I6.4 TOTAL
