truncated SID	I2.1 Using the (1-16) itemized list provided above (see "Implementation"), provide a checklist that identifies what semantic checks are either implemented or not implemented in your assignment (document Section 1).	I4.3 Description/rationale of the overall structure of the solution and the roles of the individual components used in the applied solution (document Section 2-I).	I4.3 Description of the purpose of each semantic checking phase involved in the implementation. For each phase, mapping of semantic actions to AST nodes, along with a description of the effect/role of each semantic action (document Section 2-II).	I4.4 Correct implementation according to the above-stated requirements.	I4.4 Output of clear error messages (error description and location) in a .outsemanticerrors file.	I4.4 Output of symbol tables in a .outsymboltables file.	I4.4 Completeness of test cases.	I5.2 Description/justification of tools/libraries/techniques used in the analysis/implementation.	I5.1 Successful/correct use of tools/libraries/techniques used in the analysis/implementation.	I6.4 TOTAL
