Acknowledgment of Reviewing Activities for MDPI

To whom it may concern,

MDPI is a publisher of open access, international, academic journals. We pride ourselves on the maintenance of high publishing standards, of which peer-review is the cornerstone. We only select highly qualified researchers to provide review reports. The criteria for selection include: holding a doctoral degree or having an equivalent amount of research experience; a national or international reputation in the relevant field; having made a significant contribution to the field, evidenced by peer-reviewed publications.

Dr. Mostafa (Masdar Institute of Science and Technology, Abu Dhabi, Canada) has acted as a peer reviewer for *Materials*, and *Metals*. On behalf of the journal editors, we wish to thank Dr. Mostafa for the valuable comments, and assisting us in safeguarding the high quality of MDPI publications.

Kind regards,

A handwritten signature in black ink, appearing to read 'Shu-Kun Lin', is written over a thin horizontal line.

Shu-Kun Lin
Publisher,
MDPI AG
