

## The Society for Design and Process Science

Transformative Research through Transdisciplinary Means™

# SDPS 2011

Hyatt Regency \* Jeju Island \* South Korea

June 12-16, 2011

Challenging  
+ Technical Program

Conference Theme:

**Technology Innovation  
Through Transformative Synthesis**

### About the Conference

SDPS 2011 brings together researchers and practitioners to present their latest achievements and innovations in the diverse group of disciplines where knowledge relationships are multidimensional, complex, and exploratory. SDPS 2011 is a focal point for **Transformative Science and Engineering** to address these types of problems. SDPS 2011 welcomes proposals for workshops and special sessions. Please submit to sang\_suh@tamu-commerce.edu and mtanik@uab.edu. Further information on workshops and sessions can be found in the session guide available from our conference web site: <http://sdps.co> or our main site: <http://sdpsnet.org>.

### Select Major Topics:

Collective intelligence • Cyber security • Contextual intelligence mining • Risk management • Intelligent medical systems and bioinformatics • Design automation • Innovation and entrepreneurship • Intelligent energy systems • Social engineering • Software engineering • Systems engineering • Network centric systems • Global enterprise/supply chain management • Data mining • Engineering and system software • Computational linguistics • Space systems • Semantic computing

### Important Dates:

Abstract Submission Deadline • December 31, 2010  
Paper Submission Deadline • March 4, 2011  
Paper Acceptance Notification Date • March 31, 2011  
Camera Ready Manuscript Due • April 15, 2011  
Early Registration Opens • February 14, 2011.  
Early Registration Ends • May 13, 2011.

Exotic  
Jeju Island +

### Major Sponsors & Co-Sponsors:

Texas A&M University-Commerce  
Korea Society of Industrial Information System  
Jeju National University  
University of Texas, IC2 Institute  
University of Alabama at Birmingham (UAB)  
Chongqing Research Center for Information and Automation Technologies (CIAT)

Voice: 214-253-9025

## Special Track of SDPS 2011

### Secure Collaboration in Global Design and Supply Chain Management

Jeju Island, Korea, June 12-16, 2011

Dear Colleagues,

It is our pleasure to invite you to submit papers to the special track of SDPS 2011 on Secure Collaboration in Global Design and Supply Chain Management.

[We apologize if you receive multiple copies of this CFP. Thank you for your understanding]

### CALL FOR PAPERS

The Society for Design and Process Science (SDPS) aims to bring together engineers, scientists, managers, decision makers and organizations to develop solutions for the increasingly complex problems in the global industry and economics.

In this special track on Secure Collaboration in Global Design and Supply Chain Management, innovative approaches, methods and algorithms are sought for the modeling, analyzing, and mitigating risks in information security resulted from a collaborative design and supply chain.

Substantially extended version of selected papers from this special track will be considered in a special issue of Computers in Industry:

([http://www.elsevier.com/wps/find/journaldescription.cws\\_home/505646/description#description](http://www.elsevier.com/wps/find/journaldescription.cws_home/505646/description#description)).

Topics of interest to this special track include, but are not limited to, the following:

- Analysis and modeling of information leakage
- Design competency modeling
- Risk analysis based on Product Data Model (PDM)
- Mechanism for protecting confidential information
- Security and privacy requirement modeling
- Security and privacy policies
- Economics of privacy
- Access control
- Usability issues of security and privacy techniques
- Privacy-aware data fusion and integration
- Application of secure multiparty computation
- Cryptographic techniques and protocols for collaboration

### IMPORTANT DATES

Paper Submission Deadline:	March 4, 2011
Paper Acceptance Notification Date:	March 31, 2011
Camera Ready Manuscript Due:	April 15, 2011
Early Registration Opens:	February 14, 2011
Early Registration Ends:	May 13, 2011.

## SUBMISSION

Conference papers for the session should be submitted through the online conference management system called *ConfTool* (<http://conftool.net/sdps2011>). This system requires a login which is available on the front page by clicking “Register New” (please note this “registration” should not be confused with actual conference registration which is a separate process. “Register New” merely let a user obtain a login to use the *ConfTool* system).

There is a simple procedure for submitting a paper to the conference. Once an author has registered, he or she can login, select the item “Your Submissions” and follow the instructions of the page that next appears. This will upload the paper(s) and enter them under the submitter's account.

The format of submitted papers should follow the template given in the link: <http://sdpsnet.org/sdps/>. All papers will be carefully reviewed by at least three reviewers. Accepted papers will be published in the workshop proceedings of the SDPS. Selected papers will be invited to be substantially extended for consideration in a special issue in Computers in Industry. At least one of the authors of each accepted paper must register as a full participant of the workshop to have the paper published in the proceedings.

## ORGANIZERS

### Special Track Co-Chairs:

#### **Dr. Yong Zeng**

Professor

Concordia Institute for Information Systems Engineering

Concordia University

Montreal, Quebec, Canada H3G1M8

Email: [zeng@ciise.concordia.ca](mailto:zeng@ciise.concordia.ca)

#### **Dr. Lingyu Wang**

Associate Professor

Concordia Institute for Information Systems Engineering

Concordia University

Montreal, Quebec, Canada H3G1M8

Email: [wang@ciise.concordia.ca](mailto:wang@ciise.concordia.ca)

### Program Committee:

- Mikhail Atallah (Purdue, USA)
- Vijay Atluri (Rutgers, USA)
- Eric Bonjour (FEMTO-ST, France)
- Yuh-Min Chen (NCKU, Taiwan)
- Ruixuan Li (HUST, China)
- Yingjiu Li (SMU, Singapore)
- Theo Lim (Heriot-Watt, UK)
- Duhwan Mun (KNU, Korea)
- Sang Suh (TMU-Commerce, USA)
- Vincent Thomson (McGill, Canada)
- Lingyu Wang (Concordia, Canada)
- Yan Wang (Georgia Tech., USA)
- Yong Zeng (Concordia, Canada)
- Mohammad Zulkernine (Queens, Canada)
