The 2020 International Conference on Unmanned Aircraft Systems, ICUAS '20, will be held for the first time outside the U.S., in Athens, Greece. Athens is a metropolitan and cosmopolitan city, the capital of Greece, the birthplace of Democracy, and the home to the world-renowned Acropolis and Parthenon – a city where visitors can walk safely and enjoy the rich, almost 5,000-year-old history it has to offer. The conference venue is the luxurious Divani Caravel Hotel, http://divanicaravelhotel.com.

ICUAS '20 presents a unique opportunity to meet, interact and shape the future of unmanned aviation, worldwide. Details may be found at http://www.uasconferences.com and related links. ICUAS '20 is fully sponsored by the ICUAS Association, a non-profit organization, see www.icuas.com.

The major themes of ICUAS '20 are: integration of manned-unmanned aviation into the national airspace, legal and privacy issues, regulations, industry and international organizations, agencies, industry and authorities work towards defining roadmaps of UAS/RPAS, technical requirements and standards that are prerequisite to their full utilization. The next generation of UAS/RPAS is expected to be used for a wide spectrum of civilian and public domain applications. Challenges to be faced and overcome are many, including the topics of interest listed below. Innovative solutions to these challenges will pave the way towards full integration of UAS/RPAS with manned aviation and into the respective national airspace.

ICUAS '20 aims to bring together different groups of qualified representatives worldwide, funding agencies, industry and academia, to discuss the current state of unmanned aviation advances, and the roadmap to their full utilization in civilian and public domains. Special emphasis will be given to research opportunities, and to 'what comes next' in terms of the essential technologies that need to be utilized to advance the state-of-the-art.

Conference topics of interest include:

- Airspace Control
- Airspace Management
- Autonomy
- Airworthiness
- Biologically Inspired UAS
- Control Architectures
- Certification
- Energy Efficient UAS
- Environmental Issues
- Fail-Safe Systems
- Frequency Management
- UAS Testbeds
- Reliability of UAS
- Technology Challenges
- Payloads
- Path Planning and Navigation
- Regulations
- Networked UAS
- UAS Applications
- Risk Analysis
- UAS Testbeds
- Training
- Technology Standards
- Security
- Sensor Fusion
- Smart Sensors
- Standardization
- UAS Communications
- UAS Testbeds
- UAS Technology Management (UTM)

Through keynote addresses, round table discussions and presentations, it is expected that the outcome of the Conference will be a clear understanding of what industry, civilian, national/international authorities need, and what are the crucial next steps that need to be completed before UAS/RPAS are utilized in everyday life applications.

IMPORTANT DATES

- February 14, 2020: Full Papers/Invited Papers/Tutorial Proposals Due
- April 15, 2020: Acceptance/Rejection Notification
- May 8, 2020: Upload Final, Camera Ready Papers; Early Registration Deadline

PAPER SUBMISSION:

Paper format should follow IEEE guidelines and electronic submission will be handled through PaperCept - details are available on the conference web site. Submitted papers should be classified as Contributed (max. 10 pages), Poster (max. 6 pages) or Invited Session (max. 10 pages) papers. Accepted, contributed/invited session papers only, will be allowed up to two additional pages for a charge of $100 per additional page. Poster papers should be aimed at novel/cutting edge ideas with potential, however, not yet fully developed.

Invited Sessions:

Proposals must be submitted/uploaded electronically. A Summary Statement describing the motivation and relevance of the proposed session, paper titles and author names must be uploaded electronically by due date. Authors must also submit full versions of invited papers electronically, marked as Invited Session Paper.

Workshops/Tutorials:

Proposals for workshops/tutorials should contain title, the list of speakers, and extended summaries (2000 words) of their presentations. Proposals must be sent by e-mail to the Tutorial/Workshop Chair by due date.

Review Process:

All submitted papers will undergo a peer review process following IEEE rules and policies. Authors are encouraged to accompany their presentations with multimedia material, which will be included in the Conference Digital Proceedings.

Paper presentation:

Contributed/Invited Session papers will be grouped in Technical Sessions and will be allocated 20 minutes for oral presentation, which includes questions from the audience. Poster papers will be grouped based on subject. Presenters are encouraged to supplement the poster with additional slides, video or software demonstrations, etc. All poster paper presentations will be scheduled in one day.

For any additional information about ICUAS '20, and about mixing business and pleasure while in Athens / Greece, please e-mail Kimon Valavanis, kimon.valavanis@du.edu.
